

# CHEEK CONTOURING

**EVERYTHING YOU NEED TO KNOW  
ABOUT CHEEK CONTOURING**

DR. AARON STANES

## DR AARON STANES

*Dr Aaron is an internationally trained and highly respected cosmetic physician with extensive experience in cosmetic medicine.*

He has pursued multiple post-graduate qualifications, and has worked in well-regarded hospitals around Australia as a medical doctor.

He will always strive for no less than the best, and put your safety as a priority.

He frequently works alongside one of Australia's top cosmetic surgeons and trains other medical practitioners in cosmetic medicine around Australia.

# TELL ME MORE...

*Get the cheeks you've always wanted with expert contouring done by Dr Aaron, one of Australia's leading Cosmetic Doctors.*

Restore your natural cheek contour and soften under eye hollowing and skin sagging with expert Cheek Fillers in Melbourne and Sydney done by a Cosmetic Doctor.

Loss of cheek volume is one of the earliest signs of ageing, and it begins to occur even in our twenties. You may notice you look more tired than you used to, or are having to contour your makeup differently. You may even see that your face seems fuller around the mouth and jawline, and less defined around your cheek bone.

Using premium Dermal Fillers, Dr Aaron can quickly restore volume to your cheeks, giving you a refreshed appearance, and provide more contour and definition to your cheekbones, all without surgery.

The treatment has almost no discomfort and only takes minutes. Even better, the results are instant, and you can get back to your day immediately.

When it comes to anti ageing treatments, Cheek Fillers are one of the most important treatments available. There is no substitute for restoring volume in the cheeks with Dermal Fillers. If you lack natural cheek bone projection, Dr Aaron can also help to provide a look that you had previously been trying to achieve with makeup contouring. Best of all is that no one will know you've had anything done, but they will notice that you look more refined, refreshed, and balanced.

## The Procedure

By using small needles, Dermal Fillers are injected into strategic locations that lack natural volume (In the case of asymmetry, or facial disharmony), or that have lost volume leading to an aged appearance.

These fillers plump the skin by adding volume. The Dermal Fillers wear off over time and are reversible (For traditional dermal fillers), meaning if its not for you, you don't have to live with it.

### **Does Cheek Contouring hurt?**

There is typically minimal discomfort with the cheek filler procedure. Dr Aaron offers different options for anaesthetic if pain is a concern for you.

### **How many mls of filler will I need?**

All treatments are bespoke. Cheek Contouring can vary significantly depending on the person.

### **How long does Cheek Contouring last?**

Cheek contouring fillers have long lasting results. Most dermal fillers gradually wear off over 12-18 months. In certain scenarios, your results can last much longer.

Dr Aaron will discuss his signature approach to achieving long lasting results with you during your appointment.

# Q&A

## FAQS

### **Are Cheek Contouring Fillers safe?**

Cheek Contouring Fillers are extremely safe when performed by an experienced cosmetic doctor.

### **What are the side effects of Cheek Contouring Fillers?**

The main side effects of Cheek Contouring are bruising and swelling, and a temporary puffy appearance at the treated area. These all settle over a few days.

### **How do I know if Cheek Contouring is right for me?**

If you feel like you lack cheek definition, and find yourself contouring the cheeks with makeup, or if you feel like your face has lost volume, and you look tired and hollow, then cheek fillers may be an ideal treatment for you.

### **Will I look fake after Cheek Contouring Fillers?**

Overdone cheek fillers look fake, and often result from practitioners who lack expertise in Cosmetic Medicine and Dermal Fillers. However, when being treated by an expert Cosmetic Doctor like Dr Aaron, achieving a natural result with your cheek filler treatment is straightforward.

Dr Aaron's approach is to ensure facial balance and harmony, and to restore volume that you've lost over time, not to inject disproportionate amounts of Dermal Fillers in the wrong locations that would leave you looking botched.

### TIME

Cheek fillers takes 10-20 minutes, with minimal downtime post procedure.

### PRICE

Prices start from \$700 depending on your goals and the complexity of treatment. Packages are available.

### RESULTS

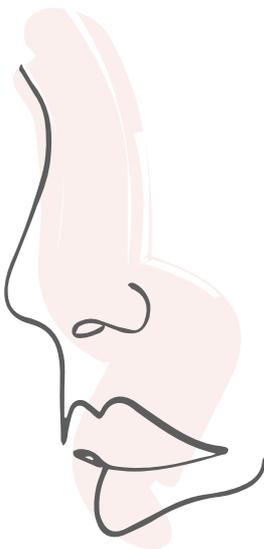

Results are immediate and last up to 18 months.

### COMBINATIONS

Premium TGA approved filler injected by an expert cosmetic doctor.

## OTHER TREATMENTS TO COMPLIMENT YOUR PROCEDURE
