

# LIP AUGMENTATION

**EVERYTHING YOU NEED TO KNOW  
ABOUT LIP AUGMENTATION**

DR. AARON STANES

## DR AARON STANES

*Dr Aaron is an internationally trained and highly respected cosmetic physician with extensive experience in cosmetic medicine.*

He has pursued multiple post-graduate qualifications, and has worked in well-regarded hospitals around Australia as a medical doctor.

He will always strive for no less than the best, and put your safety as a priority.

He frequently works alongside one of Australia's top cosmetic surgeons and trains other medical practitioners in cosmetic medicine around Australia.

Dr Aaron will always consider your lip augmentation comprehensively, and advise when other treatments will work with a lip augmentation to give you an even better result.

So, if the perfect pout is something that you want, get in touch and together we can give you a result that leaves you smiling!

# TELL ME MORE...

*Get the perfect pout with expert lip fillers done by Dr Aaron, one of Australia's leading Cosmetic Doctors.*

Whether you are unhappy with the shape, volume or definition of your lips, lack a defined cupid's bow, or have noticed your lips aren't as full as they used to be, a well performed lip augmentation using Dermal Fillers can help.

Lip concerns are extremely common, especially with the popularity of social media and selfies. Join the millions of people world wide who have experienced first hand the benefits of a well performed lip augmentation using Dermal Fillers.

Say goodbye to lip plumpers and lip lining with lipstick. Whether you want subtle rejuvenation and hydration, or a proud and sexy pout, Dr Aaron knows how to achieve it.

Having well balanced lips can help you look younger, fresher, and give you more confidence. With loss of lip volume over time, your lips become thin.

Fortunately, having lip fillers in Melbourne and Sydney with Dr Aaron is the answer. Using only the highest quality dermal fillers that have TGA approval for his lip augmentation procedures, you can ensure that you are in safe hands.

## How can a lip augmentation help me?

*If you are unhappy with the shape, size or texture of your lips, then lip injections in Melbourne or Sydney with Dr Aaron can give you your ideal lips that match how you feel you deserve to look.*

Lip injections work by adding volume with a biocompatible gel that naturally holds water, meaning fuller and more hydrated lips are within reach.

With lip injections in Melbourne or Sydney, you can say goodbye to the small, dry and unbalanced lips that have been bothering you.

Lip fillers are temporary and can be reversed, so if its not for you, then there's no need to worry!

## AREAS OF CONCERN

### **Thin Lips**

Sadly as we age, our gums and bones recede causing our top lip to drop, turn inward and look thinner. This effect is made worse by loss of volume in our cheeks which also causes the skin on our face to sag downwards. Our natural, beautiful definition is also spoiled by sun damage, freckles and cold sores and our lips look less... well, less kissable! So, how do we restore that youthful look? The best effect by far is to restore volume. Lip enhancement uses dermal fillers to return your lips to the kissable condition they were when you were younger, or to enhance naturally thin lips. We have several techniques for these treatments and tailor the treatment to suit your desired outcome.

### **Gummy Smile**

Do you feel embarrassed by your gummy smile?

Showing excessive areas of gum when smiling is a common problem. Many patients complain their gummy smile makes them self-conscious when smiling or laughing in social situations. Fortunately, there is a treatment to help people regain their confidence when smiling. Targeted low dose muscle relaxant injections to the lip elevator complex of muscles in combination with lip filler is a great option.

### **Botched**

With the demand for dermal fillers skyrocketing, there has now become a surge of providers offering them, not all of whom have the adequate skills or training. This in turn increases the risk of developing complication or dissatisfaction with the results. As Dr Aaron has expert knowledge of all cosmetic procedures and an artistic eye, he will be able to provide you the corrective services you may be seeking to revise or undo a 'botched' procedure.

## The Procedure

Prior to having your lip augmentation, you will have a comprehensive consultation with Dr Aaron Stanes, where your concerns will be discussed, your goals will be established, and your bespoke treatment plan formulated.

Dr Aaron will take the time to understand how you want your lips to look, and then guide you on how, using Dermal Fillers, that look can be achieved.

You will be provided with anaesthetic, ensuring your procedure is as comfortable as possible. Your lip injections will take 15-20 minutes. It is important to never rush a lip augmentation procedure, as they must be done with care to ensure you get the perfect pout that compliments your smile.

Dr Aaron only uses the best lip fillers available on the market. They are designed to give you a result that looks good straight away, and a result that lasts.

# FAQS

## **Is the procedure painful?**

Lip filler is generally well tolerated. Dr Aaron offers a number of different options for anaesthetic to ensure your procedure is as comfortable as possible.

## **How long does the lip filler last?**

Results are seen immediately, and last 6-12 months on average.

## **Is lip fillers safe?**

Lip Fillers are extremely safe when performed by an experienced Cosmetic Doctor.

## **What are the side effects?**

The main side effects of Lip Fillers are bruising and swelling, which settle over a few days.

## **How do I know if treatment is right for me?**

If you feel your lips lack definition, are too small for your face, thin out when you smile, or are changing as you get older, then a Lip Augmentation may be the perfect treatment for you.

### TIME

Lip enhancement treatment takes 10-15 minutes.

### PRICE

Prices start from \$600 depending on your goals and the complexity of treatment.

### RESULTS

Results are immediate. You are able to resume most activity immediately.

## OTHER TREATMENTS TO COMPLIMENT YOUR PROCEDURE
